

**Automated Cloud Compliance.
Secured in Code.**

Assessment

Monitoring

Reporting

**Automatically check your Microsoft 365
against CIS benchmarks, turning findings into
clear actions and audit-ready reports.**

ConfigCobra is the world's first CIS-certified SaaS platform,
officially accredited with the CIS Microsoft 365 Foundation
Benchmark Certification.

It delivers end-to-end automated configuration assessment
and reporting for modern cloud environments —
empowering organizations to stay continuously compliant
and audit-ready without manual effort.

Reduced Compliance Overhead

Automate manual audit and reporting
processes — cut costs and free up security
teams' time.

Continuous Audit Readiness

Maintain real-time compliance visibility and
be audit-ready 24/7 — not just during yearly
reviews.

Improved Security Posture

Identify and remediate
misconfigurations before they evolve
into exploitable vulnerabilities.

**Stay cloud-compliant
without manual work**

**CIS Benchmark
Automation**

**Continuous Drift
Detection**

Audit-Ready Reporting

**Unlimited, Consultant-Free
Scans**
