

📄 Reports & Evidence

Access, download, and understand your CIS-approved assessment reports for compliance audits and documentation.

Learn more at configcobra.com

📄 What are Reports?

Reports are  **CIS-approved and certified** documents that can be downloaded as  **PDF files** and presented as  **proof during an audit**. These comprehensive reports provide detailed evidence of your organization's compliance status with CIS Benchmark standards for Microsoft 365.

 **Audit-ready:** ConfigCobra reports are designed to meet audit requirements and can be directly submitted to auditors, compliance teams, or stakeholders as official documentation of your security posture.

🚀 How to Access Reports

Step 1: Log in to ConfigCobra

Log in at app.configcobra.com using your credentials.

Step 2: Navigate to Reports page

Go to the **Reports** tab where you can see all of your past assessments (both  **automated** and  **manual**). Learn more about [how to run an assessment](#) or about [scheduled scans](#).

Step 3: 👁 View assessment outcomes

You can see the outcomes of each assessment displayed in the reports list, including the assessment date 📅, benchmark type 📊, and overall compliance status ✅.

Step 4: 📄 Download reports

You can download any report using the **action button** on the right side of each report. Reports are available as ✅ **CIS-approved and certified PDF files** that can be presented as proof during audits.

📄 **Example Report:** [View Example CIS-Approved Report](#)

Step 5: 🔍 Explore report details

Opening up a report, you can see:

- 📊 **Summary tab** – Overview of the assessment results, compliance scores, and key findings
- 📄 **Details tab** – Results organized by benchmark. Opening each benchmark shows the individual control results and the ⚙ **configurations in your tenant**

🔗 Understanding Assessment Outcomes

Reports display three different types of outcomes for each control assessment. Understanding these outcomes helps you prioritize remediation efforts and track your compliance progress.

✅ Pass

The control is fully compliant with the CIS Benchmark requirement. All configuration settings meet the specified criteria.

❌ Fail

The control does not meet the CIS Benchmark requirement. One or more configuration settings are not compliant and require remediation.

⚠ Partial Pass

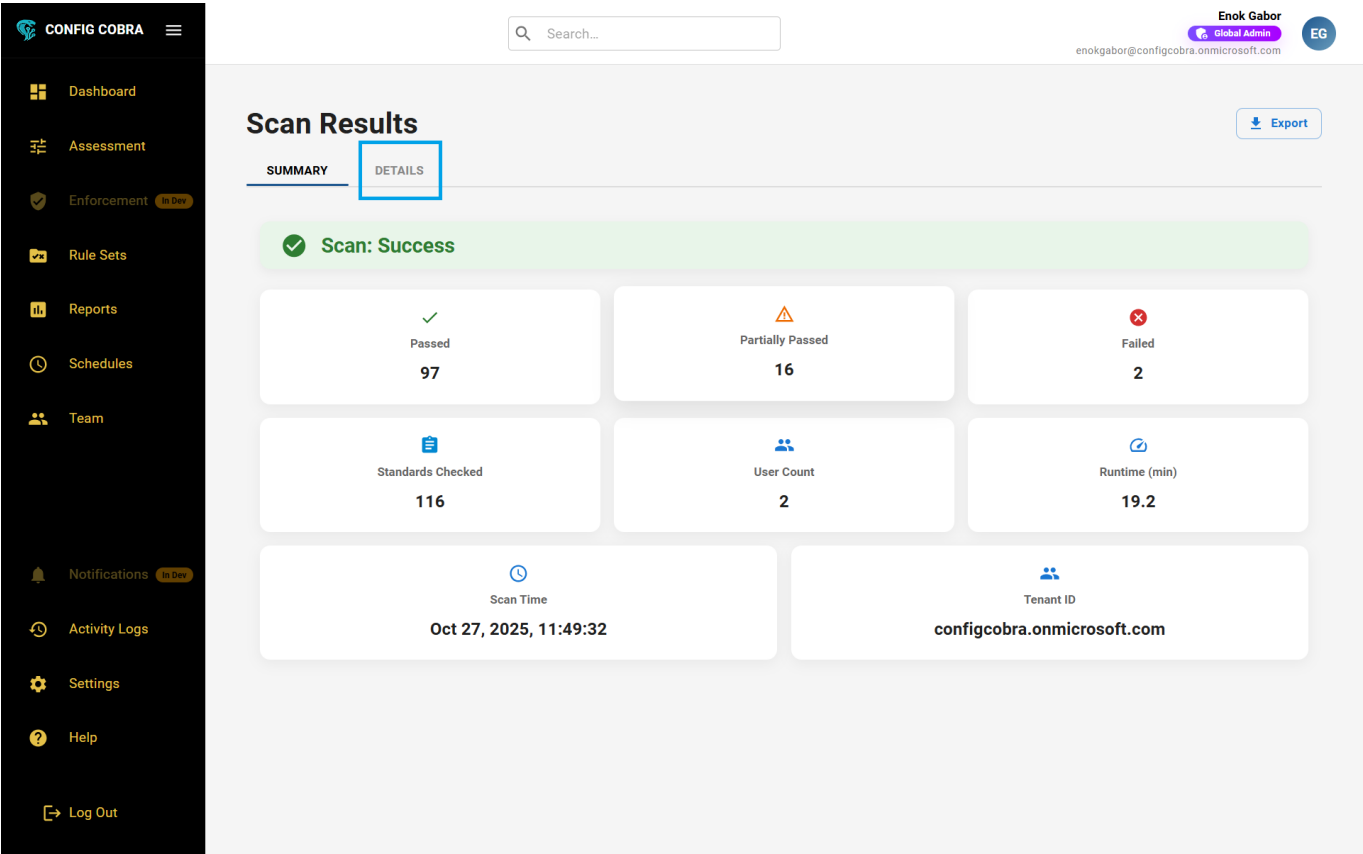

The control partially meets the CIS Benchmark requirement. Some configuration settings are compliant, but others need attention.

📄 Report Structure

📊 Summary Tab

High-level overview including:

- 📊 Compliance scores
- 📄 Total controls assessed
- ✅ Pass/fail/partial pass counts
- 💡 Key recommendations

 Details Tab

Detailed results organized by benchmark. Each benchmark can be expanded to view:

-  Individual control results
-  Configurations in your tenant
-  Remediation steps
-  Audit evidence

1.2.2	Pass	1	0	1
1.3.1	Pass	4	0	4
1.3.2	Pass	2	0	2
1.3.3	Pass	2	0	2
1.3.4	Partial Pass	1	2	3

CONFIGURATION

DESCRIPTION

O365Org Settings - O365Org Settings

Parameter: Apps And Services Is App And Services Trial Enabled
Standard: False
Tenant: True
Status: Fail

Parameter: Is Single Instance
Standard: Yes
Tenant: Yes
Status: Pass

Parameter: Apps And Services Is Office Store Enabled
Standard: False
Tenant: True
Status: Fail

1.3.5	Pass	2	0	2
-------	------	---	---	---

Use Cases

-  **Compliance Audits** - Submit reports as evidence of compliance
-  **Executive Reporting** - Share high-level compliance status with leadership
-  **Remediation Planning** - Use detailed findings to prioritize fixes
-  **Historical Tracking** - Compare results over time to measure improvement
-  **Documentation** - Maintain records of compliance assessments

Best Practices

-  Download reports after each assessment for record-keeping
-  Review summary tab for quick compliance overview
-  Use details tab to understand specific control failures
-  Share reports with stakeholders for transparency
-  Archive reports for audit trail purposes
